

Asus MeMo Pad 10 ME102A Back Panel Replacement

Replacing the Back Panel on Asus MeMo Pad 10 ME102A

Written By: Andreas Niederer

INTRODUCTION

This replacement guide will show how to remove the back panel of Asus MeMo Pad 10 ME102A

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Back Panel

- Insert the blue plastic opening tool into the seam between the back panel and the chassis.
- ⓘ When removing the back panel, remember to keep the device face down on a flat surface in order to prevent dropping the device or anything inside of the device.

Step 2

- Slide the plastic opener around the tablet. There will be spots of resistance. These should gently pop open as the tool slides through the seam.

Step 3

- After all of the clips have been opened, the back panel should be free to remove by hand

To reassemble your device, follow these instructions in reverse order.
